

DJ GRAZE

THE INGREDIENTS OF SOUND

[bio]

Sherwin Miller better known as DJ Graze, discovered his love for music at the young age of 12 finding escape from the mean streets behind the turntables. A deejay wunderkind, the Brooklyn native had a natural knack for spinning and scratching records that soon gained him local notoriety and kept him busy booking gigs at house parties and nightclubs as a teen. His talent and passion for music launched his career on a national level, showcasing his craft and gaining respect of his fellow peers in numerous deejay competitions, including the finals of the 1993 DMC DJ Comeptiton.

Like a mad scientists behind the decks DJ Graze charges the dance floor with continously accending momentum spanning with ease through genres, styles, and eras. No venue is too big or too small to fall under the influence of this maven of sound. His eclectic taste, supreme skill set, and intuitive way of reading the crowd has kept him in high demand over the past two decades. His client's list includes Tyler Perry, Martin Lawrence, Atlanta Hawks and Essence Magazine.

Nothing can stand in the way of DJ Graze's world domination. Muisc is one of the many weapons drawn to empower and inspire audiences worldwide. Aside from his busy schedule as an entertainer he has several projects in the works focused around sustainable urban farming and global economic empowerment. Join the movement and spread the love - it's the Brooklyn way!
